In regard to commercial activity, the draft MPD-2021 envisages a five tier commercial hierarchy to accommodate requirements of shopping, commercial offices and other services activities in an integrated manner for the population at various levels. Under the mixed use policy, the Draft Plan provides for allowing non-residential activities on ground floor in residential premises selectively, after taking into consideration the community needs, environmental impact and provision for safe and easy traffic circulation and parking requirements.

In so far as the Influence Zone along Metro Corridors is concerned, the draft MPD-2021 proposes enhanced norms subject to preparation and approval of comprehensive integrated scheme. Regarding unauthorized colonies, the draft MPD-2021proposes that regularization is to be done subject to the preparation of proper layout and service plans and submission to local bodies/DDA, to ensure that minimum necessary/ feasible level of services and facilities are provided.

The objections/suggestions received in response to the Public Notice issued by DDA in the Newspapers on 8.04.2005 have been referred to the Board of Enquiry and Hearing for consideration. Finalization of the draft Master Plan is a statutory process laid down in the Delhi Development Act 1957 and the rules framed thereunder. The Act does not prescribe any timeframe for finalization of the Plan.

(c) and (d) The norms proposed in the draft MPD-2021, would be operative after Notification of the plan in accordance with the process laid

down in the Delhi Development Act 1957. Till such time, the provisions of MPD-2021 which had been notified on 01.08.1990 and amended from time to time, are applicable. Adjudication by Courts is on the basis of existing provisions of the Statutory Plan.
